

The top half of the image features a landscape with reddish-brown soil and several large, jagged rock formations. In the background, there is a body of water reflecting the sky. A green geometric pattern of lines and dots is overlaid on the right side of the image. In the top left corner, there is a green rectangular box containing the EAGE logo and its full name.

OVERVIEW

The Sixth EAGE Shale Workshop will be held in the picturesque and historic city of Bordeaux from 29 April to 2 May 2019. The event is very much a multi-disciplinary and multi-industry affair, attracting representatives from academia, research institutes and the nuclear, petroleum and water industries.

Multiple industries are impacted by the presence and properties of shales, including the petroleum industry evaluating top seals, wellbore stability and shale reservoirs, as well as the nuclear, water and CO₂ storage industries for barrier sealing, flow and diffusion properties. Understanding how such rocks tick involves a complex multi-disciplinary interplay reaching from the original sedimentary and depositional environment, through compaction, diagenesis and uplift and the impact of these processes on the current properties of a given shale. Such processes govern the initial microstructure of the sediment and how that microstructure evolves in response to changing chemical environments, tectonic and burial stresses. In turn, small scale properties feed into the development of larger scale features such as faults and fractures, damage zones around tunnel excavations, wellbore instability problems while drilling and the development of high subsurface fluid pressures. Evaluating, quantifying and modelling shales thus requires the linking of multiple disciplines including geology, sedimentology, geochemistry, petrology, geophysics, civil engineering, soil mechanics, petrophysics and reservoir engineering just to name a few.

WORKSHOP SPACES

Technical Programme: Paramount/Gaumont Room (1st floor)
 Coffee Breaks/Poster Sessions: Pathé/UGC Room (1st floor)
 Lunch Break: Kfé Lounge Restaurant (2nd floor)
 Networking Reception: Pathé/UGC Room (1st floor)

TECHNICAL PROGRAMME

Sponsored by

Oral Presentations | Monday 29 April 2019

08:00	Registrations & Welcome Coffee
PARAMOUNT/GAUMONT ROOM	
Sedimentology, Deposition and Diagenesis of Shales I	
K. Taylor (University of Manchester), K. Milliken (University of Texas)	
08:30	Keynote Lecture 1 - Large Scale Climate Teleconnections Driving Marine Black Shale Formation Across the Jurassic Boreal Seaway (KFC): A Geochemistry-Modelling Perspective - T. Wagner ^{1*} , E. Atar ² , A. Aplin ² , O. Dellwig ³ , V. Lamoureux-Var ⁴ , T.L. Leith ⁵ , D. Lunt ⁶ , C. März ⁷ , B. Schnetger ⁸ ¹ Heriot-Watt University, ² Durham University, ³ Leibniz-Institute for Baltic Sea Research, ⁴ IFP Energies nouvelles, ⁵ Equinor ASA, ⁶ University of Bristol, ⁷ University of Leeds, ⁸ University of Oldenburg
09:05	Mo SW 01 - Dominance of Wind Blown Minerals in Black Shales, Connecting Continental Climate, Fe Fertilization and Mineral Ballasting - M. Kennedy ^{1*} , L. Mayer ² ¹ Macquarie University, ² Darling Marine Center
09:30	Mo SW 02 - Claystone Porosity and Mechanical Behavior vs. Geologic Burial Stress - R. Ewy ^{1*} ¹ Chevron ETC
09:55	Mo SW 03 - Outcrop to Core Comparison of Natural Fractures in the Vaca Muerta Formation, Argentina - E. Ukar ^{1*} , R.G. Lopez ² , J.F.W. Gale ¹ , R. Manceda ² ¹ The University of Texas at Austin, ² YPF
10:20	Coffee Break / Poster Session 1
Sedimentology, Deposition and Diagenesis of Shales II	
M. Kennedy (Macquarie University), D. Dewhurst (CSIRO)	
10:50	Mo SW 04 - Characterization of Quartz in Wufeng-Longmaxi Shale: Implications for Sedimentology and Shale Gas Exploration - L. Ke ¹ , L. Ganzer ^{1*} , C. Sattler ¹ , W. Xuan ¹ ¹ Technical University of Clausthal
11:15	Mo SW 05 - Early & Late Diagenetic Mineral Development within the Upper Jurassic Haynesville-Bossier Shale, U.S.A. - P. Dowe ^{1*} , K. Taylor ¹ ¹ University of Manchester
11:40	Mo SW 06 - Mineral Diagenetic Control On Hydrocarbon Expulsion in Organic-Rich Mudrocks, Bakken Formation, North Dakota, U.S.A. - K. Milliken ^{1*} , T. Zhang ¹ ¹ Bureau of Economic Geology, University Of Texas
12:05	Discussion
12:30	Lunch Break

Poster Presentations | Monday 29 April 2019

The posters for 29 April will be displayed throughout the day and presented during coffee breaks.

REGISTRATION FEES

REGISTERED AND PAID	UNTIL 22 APRIL	FROM 23 APRIL - ON-SITE
EAGE member	€ 695	€ 795
Non-member	€ 795	€ 895
EAGE student member	€ 395	€ 395
Student non-member	€ 420	€ 420

- All fees are in EUR(€). One Euro of your total registration fee is donated to the EAGE Green Fund.
- All Fees includes the Full Workshop package with Networking Reception and Workshop Dinner.
- EAGE Members: To qualify for the EAGE member registration fee, your EAGE membership fees for 2019 must have been paid and confirmed. The processing time for membership applications or renewals is 10 working days. EAGE membership runs from January through December. Membership applications or renewals received in October, November and December will automatically be considered for the next calendar year and activated (or reactivated) on 1 January.
- EAGE Non Members: The non-member fee includes EAGE membership for 2019.
- EAGE Students: To qualify for the reduced student registration fee:
 - Students must be enrolled in a full time study programme at a recognized university or institute.
 - The registration must be accompanied by a copy of a student ID card and/or official proof of enrolment.
 - Please note: Student non-members cannot be older than 34 years of age (when registering).

FIELD TRIP

Geology & Bordeaux Wines

Where: AOC Margaux and Saint Estèphe

When: 2 May 2019 - 7:30 - 19:00

Maximum of 50 participants

Registration deadline: 31 March 2019

EAGE offers you the opportunity to see the impact of geology on the character of the wine while you experience wine-tastings in two different Châteaux in France (Château des Graviers in Margaux and Château Phélan Ségur in Saint-Estèphe).

This field trip includes the travel by coach, lunch and wine tastings. To register for this one-day field trip please send us an email after registering to the Shale Workshop. For more information visit the event website via events.eage.org.
